Player Performance Pitchers

*** The following evaluations are extracted from a small sample size of only two games.

Pitcher ID # 1

- 198 pitches, 65.66 strike %. Fastball heavy, slider produced whiffs. Attacked hitters with first pitch strikes. Worked more ahead than behind.
- High contact when in the zone, 96.36 % contact rate. 5 out of 8 hits came with 2 strikes.
- Slider had most whiffs. 13 strikeouts over 47 batters faced.

Pitcher ID # 2

- Pitches ahead of hitters, stays in the zone, no walks through 3 batters.
- No whiffs, high contact in the zone and outside the zone.
- Threw any pitch on the first pitch. Throws hard.

Pitcher ID # 3

- Fell behind in counts, hitters had a good take rate. Battled from behind and produced 3 strikeouts.
- Threw mostly cutters. Hitters did whiff when chased outside the zone.
- Slider had the best whiff.

Pitcher ID # 4

- Recorded 3 outs, no strikeouts, walked 1 of 4
- High contact rate on all pitches, did not produce any whiff or chase

Pitcher ID # 5

- Had high pitch count at bats. Threw in the zone but still worked behind more than ahead.
- Produced some chase and whiff, gave up 2 hits, single and a double and a stolen base.
- Both hits were off his sinker. Best pitch is his slider.

Pitcher ID # 6

- 6 batters faced all 6 outs, with 2 strikeouts. High first pitch strikes.
- Contact rate is high but produced no hits, generated weak contact.

- Knuckle curve heavy, didn't produce any whiffs but did produce chase.

Pitcher ID # 7

- Pitched around the zone. Attacked with first pitch strikes. Produced some whiffs.
- High contact rate in the zone on all pitches. Gave up 4 hits through 26 batters and defense didn't help them with 2 errors.
- 3 out of the 4 hits came off speed pitches.

Pitcher ID # 8

- Pitched from behind. Walked 1 of 3 batters but produced a double play ball to get out of the jam.
- Throws hard and has 2 pitches. Sinker produced the ground ball.
- Looking at the release point graph, looks like a big side arm release.

Pitcher ID # 9

- Threw strikes, had a good K% and zone%.
- Struck out 3 batters out of 4.
- Gave up 1 hit from via FF down and away to a right-handed batter.

Pitcher ID # 10

- Faced 6 batters, gave up 2 singles and 1 walk.
- Didn't produce any chase, some whiffs.
- Slider was the best whiff pitch, and most FF were thrown outside the zone.

Pitcher ID # 11

- Threw strikes, gave up 7 singles and 1 walk through 26 batters.
- High contact rates on all pitches, in the zone and outside the zone.
- Threw more off-speed pitches than fastball types.

Pitcher ID # 12

- High strike thrower for small sample size. 70% strikes to 30% balls.
- Gave up 3 singles after facing 6 batters. Produced some chase and low zone contact despite giving up 3 hits.
- Throws hard, slider produced best whiff and pitch speeds between fastball types and off speed types is almost 10 mph.

Pitcher ID # 13

- No strikeouts, no walks, gave up 1 hit through 3 batters.
- Did produce whiffs and low contact with both pitch types.

Pitcher ID # 14

- Threw first pitch strike but pitched more behind than ahead.
- Gave up 1 walk and 1 homerun after facing only 3 batters.
- Homerun came off an 80-mph slider over the middle of the plate.

Pitcher ID # 15

- Came in for 3 batters and got all 3 outs with 2 strike outs.
- 2 out of 3 first pitch strikes. Produced most whiff with CH.
- Both strikeouts came via the FF.

Pitcher ID # 16

- 2 batters faced, 1 hit and 1 strikeout.
- Did not produce much chase. Hit came off of the FC.
- All pitches have below average release speeds.

Pitcher ID # 17

- Pitched behind more than ahead. Gave up 1 hit, 1 walk with no strikeouts.
- Hit came from FF slightly up and in on a left-hand batter.
- Neither pitch the FF nor SL produced any whiff.
